

Fire Management Working Group – Forest Health Council
2011 Workplan
Draft 1/12/11

Executive Order Fire Management Direction

The Forest Health Council shall advise the Governor on matters concerning community protection and fire management.

Goal

The Fire Management Working Group will provide regular reports to the Forest Health Council regarding current fire management programs, accomplishments, issues, opportunities, and outlooks.

Workplan

Review fire management related strategies and action items within existing documents (2007 Statewide Strategy and 2010 Arizona Forest Resource Strategy) for validity, completion status, and/or implementation needs. Report to FHC by September meeting.

Provide presentation on new “Ready –Set- Go” Fire Program to FHC at March Meeting.

Develop and present fire season assessment and all fire agency fire readiness report to FHC. Provide presentation at May Meeting.

Review status of WUI Code Implementation, CWPPS, and Firewise Communities. Provide report and recommendation to council at July meeting.

Review wildland dispatch infrastructure issues and present status of Az-Nm dispatch interoperability study. Provide report to council by November meeting.
